

# Welcome to Hypnosis for Traders

Hypnosis for Traders was founded by Louise Nonweiler, a World Leading Expert in Trading Psychology.

Louise has to date, successfully helped 100's of traders achieve amazing success, and has won 21 awards in the UK and Globally, for her work and commitment to helping traders.

## My Story

Hello, my name is Louise Nonweiler and I am the founder of Hypnosis for Traders. I am also a multi award-winning clinical hypnotherapist and life coach, and the creator of proven online trading psychology programmes. I also co-host Trading in the Zen podcast with Faina Vitebsky.

I founded the company a decade ago after I discovered that there was a huge gap in the market for trading psychology help, and that there was limited help and resources for traders.

Trading has been in my life for decades. I come from a family of successful traders. I traded Forex for many years, eventually venturing into helping traders succeed long-term by working on their psychology.

My passion for transforming traders lives in various ways has been, and is the most rewarding career for me. I love all aspects of trading; the markets, the ever changing technology and most importantly, seeing the positive transformation within traders.

Over the years, I have created platforms, packages and programmes. That's why I have created this manual which includes all of the products and services that Hypnosis for Traders offers traders.

# Online Sessions and Packages

## Individual Online Sessions

### How do sessions work?

All sessions are online, via Zoom. Online sessions are just as effective as face to face. All you require is a good internet connection.

The first session is 90 minutes, which is where you'll both talk through your current challenges, history of your trading, and discuss your goals and the changes you would like to achieve from sessions. Louise will share in depth how sessions work, hypnosis and the subconscious, and will implement the work towards the end of the session (through hypnosis). Every session is tailored to you.

Louise is an expert in trading psychology, hypnosis and the subconscious. She understands the challenges that traders experience, and you can rest assured that you are in the hands of an expert who has empathy and a decade of success stories.

Louise works on a 360 level. This means that she has a powerful, effective and a positive approach and will work on everything, including other areas that may be affecting your trading, such as sleep, negative beliefs around money and success.
